Sl. No.	List of the Equipment/ Item * (relevant to carry out the proposed project)	Justification for the Purchase (in brief)
1	Tensometer	<ul style="list-style-type: none"> • It is used to test the tensile strength and compressive strength of materials during the research and development phase of a products design. • It can be used to determine the varying strengths, loads and tensile strength of a particular material. • The universal aspect of this type of testing equipment reflects that it can be used to test standard tensile and compression on materials, components and other structures. • Tensometer are used widely in the manufacturing industry as a way of ensuring that materials and parts meet required safety specification and endurance requirements.
2	Vacuum bag Equipment	<ul style="list-style-type: none"> • Vacuum bagging delivers firm, evenly distributed pressure over the entire surface regardless of the type or quantity of material being laminated. • Vacuum bagging also gives us the means to control excess adhesive in the laminate, resulting in higher fiber-to-resin ratios.

Summary of Part-A

	GRAND TOTAL (1st year + 2nd year)	15 lakhs

Institution/ Principal Investigator and Co- Principal Investigator shall abide by the following VGST Terms & Conditions:

- ❖ Procurement for items Rs. 1.00 lakh and above shall be made strictly through E-tendering process using GoK E-portal as per KTTP Act.
- ❖ To facilitate hassle free procurement of equipment by the Grantee Institution, VGST desires to be flexible by permitting "Package Approval" instead of "Item-wise Approval" in procurement procedure under non-Recurring grants. Yet, the total Non-Recurring Expenditure shall not exceed specified percentage (90%) of the VGST annual grant. The re-appropriation of the cost/ price of single item shall not exceed 15% of the approved cost.
- ❖ Further change in the Budget Estimate (Both Non-Recurring & Recurring) will not be entertained.
- ❖ For purchase of Items less than Rs.1.00 lakh, minimum 3 quotations have to be taken and to be purchased for the lowest quote.
- ❖ The proposal shall include Technical Specification of the Equipment (TSE) and Justification of the Purchase (JPE). This supportive information is most essential for Non-Recurring Budget Estimate (Proposals without TSE & JPE will not be considered for selection).
- ❖ Any deviation from the allocated 15% in Budget Estimate is strictly not allowed.
- ❖ The total expenditure towards Sl. No. RE 1 to RE 8 shall not exceed the fixed percentage indicated against each item head.

If items RE 1 to RE 4 are not applicable for the scheme/project, the grant can be utilized for item no. RE 6, RE 7 and RE 8 or for item which are specific to the project.
