### WORLD ENVIRONMENT DAY HISTORY

World Environment Day (also called as WED) has been started celebrating as an annual event on every 5<sup>th</sup> of June since 1973 in order to raise the global awareness about the importance of the healthy and green environment in the human lives, to solve the environmental issues by implementing some positive environmental actions as well as to make aware common public worldwide that everyone is responsible for saving his environment and not only somebody, government or organizations working for it.

**Scope of the program:-** The environment has become increasingly polluted with contaminants and toxins, and these have a harmful impact on our health. They can cause respiratory diseases and cancer—and that's just for starters. **INTERNATIONAL YOGA DAY: 21/06/2018**

**International Day of Yoga**, or commonly and unofficially referred to as **Yoga Day**, is celebrated annually on 21 June since its inception in 2015. An international day for yoga was declared unanimously by the United Nations General Assembly (UNGA). Yoga is a physical, mental and spiritual practice originated in India. The Indian Prime Minister Narendra Modi in his UN address suggested the date of 21 June, as it is the longest day of the year in the Northern Hemisphere and shares a special significance in many parts of the world. Yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. By changing our lifestyle and creating consciousness, it can help in well being. Let us work towards adopting an International Yoga Day.

NSS Unit in association with Art of living, an International spiritual organization celebrated International Yoga Day at KSIT Campus on 21 June 2018. All faculty members were participated and made grand success.
