In its unwavering pursuit of academic excellence, the institution places a paramount emphasis on the attraction and retention of highly qualified, experienced, and dedicated faculty members. Recognizing that the quality of education is intrinsically tied to the caliber of its teaching staff.

Moreover, the institution is devoted to developing and maintaining relevant infrastructure to support a conducive learning environment. This commitment extends beyond traditional classrooms to encompass cutting-edge laboratories, libraries, and other facilities necessary for comprehensive academic growth. The aim is to provide students with the tools and resources essential for a holistic and well-rounded educational experience.

Recognizing the symbiotic relationship between academia and industry, the institution actively networks with both the corporate sector and **premier educational institutions**. This collaboration is intended to stimulate the generation of new ideas by facilitating research and development opportunities. By providing state-of-the-art facilities for research endeavours, the institution seeks to encourage innovation and contribute to advancements in various fields, thereby fostering academic excellence.

Furthermore, the institution is dedicated to shaping not just academically proficient individuals but well-rounded professionals with a strong ethical foundation. The emphasis is on instilling professional and ethical values among students, ensuring that they not only possess employable skills and knowledge but also embody a sense of responsibility and integrity towards societal needs.

KSIT, with its vision of providing high-quality technical education, values, employable skills, and research, aims to achieve excellence by attracting and retaining highly qualified, experienced, and committed faculty. The institution is equipped with relevant infrastructure and a strong network with industry and premier institutions to strive for academic excellence. The management committee receives support from an Academic Advisory Board chaired by a former Vice Chancellor of VTU, along with two acclaimed academicians, one industrialist and Chief Executive Officer who acts as bridge between Advisory Board and management.

Along with the day-to-day activities of the institution are managed by the Principal, Heads of Departments, faculty members, and technical staff. Institutions also involve in arranging, conducting and organizing various activities to upskill the faculty and students knowledge. The faculty plays a pivotal role in this process, being actively encouraged to embark on a journey of exploration, experimentation, and research within their respective domains. This encouragement is designed to empower faculty members to stay at the forefront of knowledge and innovation, thereby enriching the educational experience they offer to students.
