

KSIT
K S INSTITUTE OF TECHNOLOGY

SOUVENIR

VOLUME 7

**BATCH of
2017-2021**

NAAC
NATIONAL ASSESSMENT AND
ACCREDITATION COUNCIL

DR. K V A BALAJI
CEO

KSIT, a NAAC Accredited Institution in the city of Bangalore, is charting new territory in pursuit of excellence through hidden talents of our students. At, KSIT we spot talents, nurture dreams, sponsor participation and promote self confidence to all the building professionals who come here with a passion to achieve and succeed.

I must congratulate all our staff members for their dedication and commitment in harnessing the talents of our students and encouraging them to learn, experience, do and achieve the various things that they go through during their stay in the portals of this temple of learning.

The Management of this Institution is focused and committed to the overall development of all our students and thus commitment is transformed into reality by the effective team work of the teaching and non-teaching staff.

I wish each and every student of this great institution the very best in all their academic endeavors and professional pursuits.

OUR VISION:

“To impart quality technical education with ethical values, employable skills and research to achieve excellence”

OUR MISSION:

- **To attract and retain highly qualified, experienced & committed faculty.**
- **To create relevant infrastructure.**
- **Network with industry & premier institutions to encourage emergence of new ideas by providing research & development facilities to strive for academic excellence.**
- **To inculcate the professional & ethical values among young students with employable skills & knowledge acquired to transform the society.**

MESSAGE BY EDITOR

It has always has given me immense pleasure to be the Editor in charge of the College Newsletter and The Souvenir. We are so excited to release this year's Souvenir.

I hereby take this opportunity to thank my editorial team and the student coordinators who have been helping me throughout the release of the latest edition of Souvenir.

I wish all the outgoing students best of luck from the bottom of my heart.

- DR. UMASHANKAR M
EDITOR IN CHIEF

EDITORIAL TEAM

CHIEF CO-ORDINATOR: Dr. Umashankar M (ME)

CHIEF EDITOR: Dr. Swathi K (CSE)

CHIEF DESIGNER AND EDITOR: Spoorthi R (CSE)

FACULTY CO-ORDINATORS

Dr. Nirmala L (ME), Ms. V. Sangeetha (ECE), Ms. Smitha Mallya (ECE), Dr. Rekha N (TCE), Ms. Anuradha MV (BS & H)

STUDENT CO-ORDINATORS

Kushal Rao (ME), Shashank M G (ME), Prithvi B (ME), Raksha S (CSE), Vishal Gowtham. N (ECE), Rithvik .P (ECE), , Shiva Shankar. B (ECE), Ravitej K (TCE) , Yashasvi Bhat (TCE), Madhu Salimath (BS & H), Parvathy (BS & H)

NEW MANAGEMENT COMMITTEE

SITTING FROM LEFT TO RIGHT

Sri.T.Neerajakshulu Naidu (Treasurer), **Sri.S.Venugopal Naidu** (Joint Secretary), **Sri .B.Lokanadha Naidu** (Vice President), **Sri. R. Rajagopal Naidu** (President), **Dr. M. Rukmangada Naidu** (Vice President), **Sri.R. Leela Shankar Rao** (Hon. Secretary), **Sri. V. Rajendra Naidu** (Joint Secretary), **Sri.M.Yogamurthy** (Internal Auditor)

STANDING FROM LEFT TO RIGHT

Sri. V. Ramesh Kumar (Director), **Sri.J.M.Chandra Shekar** (Director), **Sri. G.V. Ramesh** (Director), **Sri. T. N.Manjunath** (Chairman, Environment Committee), **Sri. D. Jagadish Kumar** (Chairman, Transport Committee), **Sri. N.Krishnama Naidu** (Chairman, Hostel Committee), **Sri.A.V.Nagaraj** (Chairman, Building Committee), **Sri. N.M. Krishnamurthy** (Chairman, Finance Committee), **Sri.G. Ramana Babu** (Director), **Sri. M. Sudhakar** (Chairman, Legal Cell), **Sri.P.Prabhakar Naidu** (Director)

**Sitting from Left to Right
Sri. R. Leela Shankar Rao, Sri. R. Rajagopal Naidu,
Sri.T.Neerajakshulu Naidu**

It's a matter of great satisfaction and pleasure to present to the graduates this souvenir on the occasion of the graduation of our BE students. Souvenir exhibits a panoramic view of the efforts and achievements of the students during their stay in college.

Hearty congratulations to all the students of the graduating class of 2021.

You will be embarking on a new journey and we are confident that you would uphold the morality and dignity of the profession while placing the values of our Institution at the highest pedestal and we also are sure that you shall perform to the best of your abilities in the society as distinguished alumni of our Institute.

We wish you the best as you embark on yet another voyage to realise your dreams without compromising on values.

GOOD LUCK AND WISHES

-Management

Dear Students,

Although the adage says "Student's life is Golden life", at times, students would work extremely hard. But all is well that ends well!

Today at the time of graduation, it is celebrations. It is highly gratifying to see all of you graduating and I congratulate you for that. At this time when you stand at the door steps of yet another challenging life ahead, I wish you the very best.

May all those knowledge you acquired be of help at all steps. The future would be bright and meaningful predominantly because of the education and training that you all have obtained. The institution and I are proud of your achievements.

Try to stay connected with your Alma mater. Ensure you conduct yourself in the society worthy of your profession. May all glory be yours and hence to the institution.

Remember we are here always to support you and, if possible, suggest to you at all times.

GOOD LUCK AND STAY CONNECTED

**-Dr. Dilip Kumar K
Principal / Director**

PREVIOUS MANAGEMENT COMMITTEE

SITTING (LEFT TO RIGHT)-

SRI R.LEELA SHANKAR RAO (Joint-Secretary), **SRI K.VENKATESH NAIDU** (Hon- Secretary), **SRI K.SHIVA RAO** (Vice-President) , **SRI Y.RAMACHANDRA NAIDU** (President), **SRI T.RAMACHANDRA NAIDU** (Vice-President), **SRI B.LOKANADHA NAIDU** (Joint– Secretary), **SRI D.RUKMANGADA** (Treasurer), **SRI L.KRISHNAMURTHY** (Internal Auditor).

STANDING (LEFT TO RIGHT)-

SRI T.NEERAJAKSHULU NAIDU (Chairman Hostel Committee), **SRI M YOGAMURTHY** (Chairman Finance Committee), **SRI M.C.VARADHARAJULU**(Director), **SRI D.JAGADISH KUMAR** (Chairman Hospital Committee), **SRI N.KRISHNAMA NAIDU** (Chairman Building Committee), **SRI M.N.PADMANABHA** (Director), **SRI N.M.KRISHNAMURTHY** (Director), **SRI T.KUMAR** (Director), **SRI P.B.PRAKASH KUMAR** (Chairman Transport Committee), **SRI A.V.NAGARAJ** (Director), **SRI M.SUDHAKAR** (Chairman Legal Cell).

**“ NO ONE EXPECTED A FIRST YEAR ENGINEER
TO BUILD
THE PREFECT BRIDGE.”**

Starting from pen and assignments to sorrow and happiness we shared our every feeling with one another in last four years. Some time we cried together, some time went on night outs, some time bunked classes together. Borrowed money from friends and never returned them. I remember those last night studies for exams. We engineer lived the most precious moments of our life in this campus. I know that we all can never be together in future.

We all made a lot of friends here. Few were close enough, few were good, and few were always there for us whenever we needed them. How fast these four years vanish with fun, love, study, joy and sorrow. It really astounds me. The campus, its beauty, our teachers, deans, chancellors and most precious thing you all friends, you all are unforgettable to me.

I would like to thank you all for the precious contribution in my life. In future we do not know that where we will be. So the most important thing which I would like to tell you that today is the day to live your life up to the fullest. We do not know that in future this day will come again or not. At last wishing good luck to all of you for your future I want to tell you that I love you a lot friends.

-SHASHANKH MG

To the optimist, the glass is half full. To the pessimist, the glass is half empty. To the engineer, the glass is twice as big as it needs to be". Engineering immensely transforms every personality and moulds us into a new character after the roller coaster ride of four years. You'll never run out of new ways to fix challenges when you are an engineer from the heart. After having those serious aims in life as instructed by our parents and teachers, there is also another devil voice at the back head asking us to break free and relax after the hectic preparations of engineering exams. Who isn't familiar with this? Almost eating up the mammoth syllabus just a night before the exams had become a habitual practice for engineering students. With all these memories to take in, I must say my Royal Mechanical department has always supported and encouraged me in any way possible, from giving attendance even when we didn't attend classes, to guide us in our lives and have a laugh with the students as friends. Some of my best engineering endeavours were when I joined the team Prodigy Racers, the garage was like a second home to the team from after college hours to late-night shifts building and racing the Go-kart in the college premises. I thank everyone in the mechanical department, the teaching and the non-teaching staff, my friends, and seniors for four blissful years of my life.

-KUSHAL RAO R

I am sharath chawhan from mechanical department to share my experience about my college life usually they say "TIME FLIES SO FAST" but when it comes to engineering life these four years period of time travels even more faster. To talk about KSIT, it has played a major role in growth of many individuals who had studied here and got graduated from this institution. Being in KSIT I learnt many things and I am grateful to be part of this institution. A student's success is totally dependent on his teachings. When it comes to our mechanical department teaching, I would say it's much more than teaching. I learnt more about life also, and teachers here give their best in their work that itself is a huge lesson. I would like to thank my lecturers for their continuous support.

**“ALL PARTS SHOULD GO TOGETHER
WITHOUT FORCING. YOU MUST
REMEMBER THAT THE PARTS YOU
ARE REASSEMBLING WERE
DISASSEMBLED BY YOU.
THEREFORE, IF YOU CAN’T GET
THEM TOGETHER AGAIN, THERE
MUST BE A REASON. BY ALL
MEANS, DO NOT USE A HAMMER.”**

I distinctly remember the feeling of walking into KSIT four years ago thinking and worrying about my journey. When I look back, I realize that being a part of KSIT was one of the best things that happened to me. Words cannot express the amount of gratitude I have towards KSIT.

I am so proud to state that I was the newsletter co-coordinator for the department and I cannot tell how happy I was. I had been involving myself in a lot of events that was being conducted by the department. I would wait eagerly to go and help the department arrange an event. The rush to get things done, the need to make the event a huge success and the prolonged stays after a day with people interacting with each other is something I look back at a lot. We were just trying to have fun, but little did we know that we were making memories. Memories that I want to treasure for the rest of my life. The teachers were "The Backbone" to almost everything. It could be about an assignment, an event, guidance, or even to lift up our spirits, the teachers were always there for us. I don't know how difficult it would be for me without them. I'll miss approaching to them almost everyday having a question in mind. If there's something I want to say to them, I would like to say thank you, literally for everything. Towards the end, I also have a secure job, thanks to Placement Team.

On the first day, we were resented to wear ID cards, but now after four years, memories flood in my brain making me want to relive all of the four years.

-SPOORTHI R

I vividly remember the first time I visited KSIT, a lot of students with high aspirations were eagerly waiting for their admissions, I was one of them. The professors were very welcoming and eager to receive us with open arms.

The institution offers quality education and training, adequate opportunities for extra-curricular and sports activities. The techniques professors adopt in teaching the lessons are flexible and feedback of every student is considered to improve the student's understanding.

Nothing better than a group of good friends...isn't it? I'm very thankful to my friends who've stuck with me through thick and thin. A bunch of good friends and you'll be set for an amazing time. An introverted me being picked as the class representative and I was taken aback. This is the time you hop out of your cocoon and explore new people and newer environments and I'm sure you'll never look back.

And I'm really grateful for the opportunities provided by placement department and teaching faculty. They'll be your support system throughout, and help you till you secure a job.

-KISHORE PRASHANTH

"Happiness is when what you say, what you do and what you think are in harmony." - Mahatma Gandhi.

My happiest phase in life were my engineering college days. I cherish every moment I lived with my friends and teachers. KSIT taught me many responsibilities and how to handle them as a student, a class representative, an event coordinator and many more. People say first benchers have no enjoyment and all they do is study, but today I proved them wrong. I was involved in every work, every responsibility, every opportunity that I received. As the saying goes "Best friends make the good times better and the hard times easier." My friends were always supportive in every decision I made. The teachers in KSIT don't even bother to teach a student 100 times if he doesn't understand. That shows the quality of teachings we received. "Teachers we may go away but your teaching will always remain with us." One of the most fearful things is "Placements". I am grateful to KSIT for providing amazing placement opportunities from many MNC companies with great packages and 100% placements even in this COVID pandemic.

I thank KSIT for giving me wonderful teachings, great friends and a marvellous experience.

“WHAT WE USUALLY CONSIDER AS IMPOSSIBLE ARE SIMPLY ENGINEERING PROBLEMS... THERE'S NO LAW OF PHYSICS PREVENTING THEM.”

“A GOOD SCIENTIST IS A PERSON WITH ORIGINAL IDEAS. A GOOD ENGINEER IS A PERSON WHO MAKES A DESIGN THAT WORKS WITH AS FEW ORIGINAL IDEAS AS POSSIBLE. THERE ARE NO PRIMA DONNAS IN ENGINEERING.”

K.S Institute of Technology has been the most enthralling journey of my life. It has been an institute which has helped me nurture my skills as an engineer and grow in leaps and bounds. KSIT has given me the support and confidence to grow both personally and professionally. The faculty have been a great support with their tireless efforts in my upbringing as an engineer. Having spent the last four years in this esteemed institution, I have witnessed a tremendous change in my life may it be on the academic front or even on a personal level. The placement cell of the college also works tirelessly to provide the students with numerous opportunities in the industry that allows them to step into the professional world seamlessly. Apart from this, KSIT has encouraged me to participate in various activities like paper publishing, ideation, project exhibitions, and many more including other extracurricular activities. In addition, KSIT IEEE student branch is best part and being secretary of IEEE SPS student branch, I feel elated for being part of it and work for it which enhanced my communication skills, leadership skills, team work mainly. A dream becomes a goal when action is taken toward its achievement and all our dreams can come true if we have the courage to pursue them, that courage and path towards achievement are shown by stupendous professors of KSIT. Even during pandemic, they all supported us and did splendid classes however, I miss offline classes, especially ANANYA. Although thank you is not sufficient to describe, I want to take the time to extend gratitude to all my faculties for their love and support. All these 4years have been recorded in my heart and mind which I will never forget and these 4 years were best memorable days in my life. KSIT is a blessing in disguise for me. Once again, thank you KSIT.

- M SIRISHA

College was a dreamland for my educational life and my career. I choose KSIT because it provides a perfect platform for students to excel in both academics and co-curricular activities. KSIT has given me a great opportunity to grow myself. It was a beautiful period and a picture of learning, enjoyment, freedom and friendship. My first journey at KSIT began by lighting the lamp at the time of orientation program. I was really nervous as all the people were new to me. But soon, I started enjoying my college life with the fantastic learning experience and friends. I joined IEEE, ISTE SOCIETIES in my second year and had a amazing experience in working for it. During my final year I was elected as the vice chair for IEEE student branch at KSIT and was very pleased to work for IEEE Student Branch along with WIE affinity group. I had an opportunity to shape myself as a better person with the best support and guidance of all the facilities. All the facilities were such a great strength and pillar of support who always directed me towards the right path. The most exciting week was the Ananya fest which had such remarkable moments. Finally, I would like to thank the institution for giving me a great opportunity and experience. I am proud to be KSITIAN.

- SAHANA V

I have been blessed with access to a Bachelor's degree in KSIT, and the luxury of growing comfortable with my student status. I feel like my college has more than prepared me for whatever comes next. My sincerest thanks to the Department of Electronics and Communication, for being the support system I never knew I needed. Thank you for showing me what true mentorship is, and raising my standards of what I expect from leaders and higher-ups in the workplace. Thanks class discussions, for teaching me how to appreciate difference, and to be open to it, even when it's painful. I sincerely thank my professors for introducing me to new, and complex ideas that stretch my brain and force me to acknowledge and adopt a different perspective. College has been the opportunity of a lifetime, and even that is an understatement. Rather than saying goodbye to a period of my life that has meant so much to me, I will say thank you to my college, for giving me the character I need to keep building, the brain I need to keep expanding, and the heart I need to keep loving. I will treasure these memories for the rest of my life.

20th July 2017 the day when I officially got admitted to KSIT coincidentally 20th July 2021 is the last working day. So this exact 4 years of journey was adventurous. Adapting to engineering curriculum was a challenge for me. I almost took 1 year to adapt to this pace of life. But then I realized this was just the trailer and the actual picture starts from 2nd year. Again started from the scratch. In between all these 1 week of Anaya made our student lives more memorable. I even got a chance to participate in VTU youth fest not once but thrice. I have also been a part of NSS camp which was filled with learning and fun. Life was good. Now moving forward to the day when we were peacefully writing our 1st internals of 6th semester and none of us knew soon we all were going to end up attending our classes, internals and presentation from home. Zoom and MS Teams became our classrooms. We all lost the most precious time of our student life. Even though we have spent 4 years of our lives in KSIT we'll not have a group photo to cherish memories in future this hurts the most. And, I will definitely miss being called CR. The management, the faculties and the non-teaching staffs at KSIT were always ready to help us out. Of course, my parents and friends were also there through thick and thin. I'm very thankful to everyone who has been a part of this journey. It feels like yesterday when I first visited the campus to attend the orientation program. Now I realized "TIME REALLY FLIES".

GOWTHAMI V

Words are not enough to describe the feeling of almost completing my 4 years of student journey in KSIT. Undoubtedly my journey in KSIT is the best part ever. When I run down the memory lane and recall the day I first stepped into the college and got along with my friends. Indeed! the feeling is still fresh. Completing loads of assignments near the round table, group study during internals, records submission, Industrial visits which really helped us to gain knowledge, Hut-tea diaries etc., all these are memories to cherish forever. How can I forget about Anaya the cultural fest? So many cultural activities, ethnic day, unique themes for each day of the week and finally the event day. Definitely Anaya is my KSIT provides a lot of opportunities for us to showcase our talents by conducting many events on campus and all the events will be well organized. All the faculty members are really supportive towards our academics as well as the extra-curricular activities. Also, I must say that the NSS events and camps are the best. Overall it's been an amazing journey and I definitely miss being called by my USN for the attendance. Dear KSIT, thanks for being the important phase of my life. I'm forever grateful.

Proud KSITian.

SAHANA R

Throughout my 4 years of engineering at 'KS Institute of Technology', I had countless opportunities to develop analytical skills, leadership and proactive thinking for various programs and events. For which I thank my teachers for their constant encouragement and support. They challenged and pushed me to be better and creative in my projects and for the cultural events, because of which I now have enough confidence to tackle any problem. The placement cell of the college has guided us throughout our curriculum for getting better opportunities during placements. All of these helped me to have two offer letters at the end of the placement season, each offer letter being from a well-known MNC. My sincere appreciation and gratitude to the Telecommunication Engineering department for their steadfast support and encouragement, this would not have been possible without them. I'm very thankful to the HOD and faculty of TCE department for putting their best efforts to get the best of me. I shall always remain in gratitude & joy for having studied in this Institute.

**“THE SCIENCE OF TODAY IS THE
TECHNOLOGY OF TOMORROW.”**

- EDWARD TELLER

The background features a light gray field with a network of thin, intersecting yellow and orange lines. Scattered throughout are faint, stylized icons representing various engineering concepts: a clipboard with a gear, a single gear, a lightbulb, a wrench, a hard hat, a square, a computer monitor with a gear, a pair of compasses, a microchip, a calculator, and a speech bubble with a gear.

“At its heart engineering is about using science to find creative practical solutions. It’s a noble profession.”

“One man’s “magic” is another man’s engineering. “Supernatural” is a null word.”

“To the optimist, the glass is half full. To the pessimist, the glass is half empty. To the engineer, the glass is twice as big as it needs to be.”

“This job is a great scientific adventure. But it’s also a great human adventure.”

“Science can amuse and fascinate us all, but it is engineering that changes the world.”

“The ideal engineer is a composite ... He is not a scientist, he is not a mathematician, he is not a sociologist or a writer; but he may use the knowledge and techniques of any or all of these disciplines in solving engineering problems.”
