Technical talk On **DEEP LEARNING**

Date of conduction: 24th October 2025

Venue: NB 204 Seminar Hall.

Time: 10.30 am

Duration - 2 hours.

Sponsoring bodies and organizations - NA

Name: Mr. Prashanath Raghu

Designation Founder & CEO

Organization: Gonagoor Technology Solutions Pvt Ltd.

Place: Bangalore

Brief profile of the resource person.

Mr. Prashanth Raghu is the Founder and CEO of Gonagoor Technology Solutions Pvt. Ltd. With 12 years of experience in the field of artificial intelligence, deep learning, and advanced computing, he has played a key role in driving innovation and practical applications of modern technology. His contributions and leadership continue to inspire young engineers and professionals across the nation.

Description of the Event

The event started with an inauguration program at 10.30 am hosted by Sreyashree Joshi . Sreyasree Joshi welcomed the gathering and the guest was introduced by Brinda S. Our chief guest Mr. Prashanth Raghu shared a few words with us and the session commenced by 10.45 am.

Summary of the presentation with key topics

1. Introduction to Deep Learning and its **applications** in daily life.
2. Various **practical issues** faced in the industry and how the solution was identified. The challenges led to **innovative ideas** and improved the overall outcome of the products.
3. The important **skill sets** that are required to survive in the AI technology
 - a. **Linear Algebra**
 - b. **Probability**
 - c. **Statistics**
 - d. **Python Programming**
 - e. **Constant updating of knowledge.**

Objectives / key highlights:

- **Understanding the importance** of Deep Learning in the real world.
- **Understanding the Problems and challenges faced on the field and their solutions.**
- **Understanding the Skillsets required to become an expert in Deep Learning.**

Participant details:

- No. of participants in total: 75 (7th Sem & 5th Sem CCE).
- Faculty –D Saritha, Asst Professor.

Outcomes/Benefits:

- Students were able to understand the concepts of neural networks learning processes.
- Students gained knowledge on different interactive applications of deep learning.
