Department of Computer Science and Engineering
cordially invites you to
Distinguished Guest Lecture (DGL) on
"Internet of Things and its Scale of Usage"
by

Mr. Rajarama Nayak
Head, Connected Consumer Products and Solutions, IOT Unit, TCS

Abstract of the Lecture - Internet Of Things (IoT) is one of the key upcoming technologies in enabling digitally connected world. It enables connectivity of billions of different types of end devices to the internet and also derive intelligence through the data captured through them. This technology has wider possibilities of usage at scale across industries. The talk will provide an overview on the technology and its possible usage across industries.

About the Speaker: Mr. Rajarama Nayak has an industry experience of 36+ years in the area of embedded systems and IoT. He started his career at ISRO and worked there for around 14 years, before moving to Sasken Communications Technology for around 3 years. He is currently working in TCS for the last 18+ years. He is currently Head of Connected consumer products & solutions in the IoT Unit.

REPORT ON DISTINGUISHED GUEST LECTURE

“Internet of Things and its scale of usage”

The Department of Computer Science and Engineering in association with BITES Organized Distinguished Guest Lecture on **“Internet of Things and its scale of usage”** on 1st September, 2021 in virtual mode with Microsoft Teams platform. Teams code: tz6svs1 and Teams Link: https://teams.microsoft.com/l/meetup-join/19%3aywfd6ho4DanmfOB7JbDF6ukSAZRWAsNIInM4Z9_phf11%40thread.tacv2/1629695512020?context=%7b%22Tid%22%3a%22d54dff4a-0f7d-46b3-b1766c9004f4a591%22%2c%22Oid%22%3a%22a950450d-e760-42ff-8b81-c73a466c8308%22%7d. The 4th and 6th Semester CSE Students were the targeted participates. 96 students members attended the lecture.

Speakers

Mr. Rajarama Nayak,
Head Connected Consumer Products and Solutions,
IoT Unit,
Tata Consultancy Services.
Bengaluru.

Program was started by welcoming all the dignitaries and speaker. Principal Dr. Dilip Kumar K welcomed the speaker Mr. Rajarama Nayak, Dr. K N Balasubramanyam Murthy, Chairman BITES, Dr. Jamadagni H S, Heads of all department, Faculty members and student participants.

The speaker Mr. Rajarama Nayak started the Guest lecture by giving brief insights into IoT. Technology Trends of IoT connections is being increasing and may reach 25 billion by 2025 and IoT Cloud market is expected to grow from 6.4 B \$ in 2020 to 11.5 B \$ in 2025. The complexity involved in structure of IoT devices.

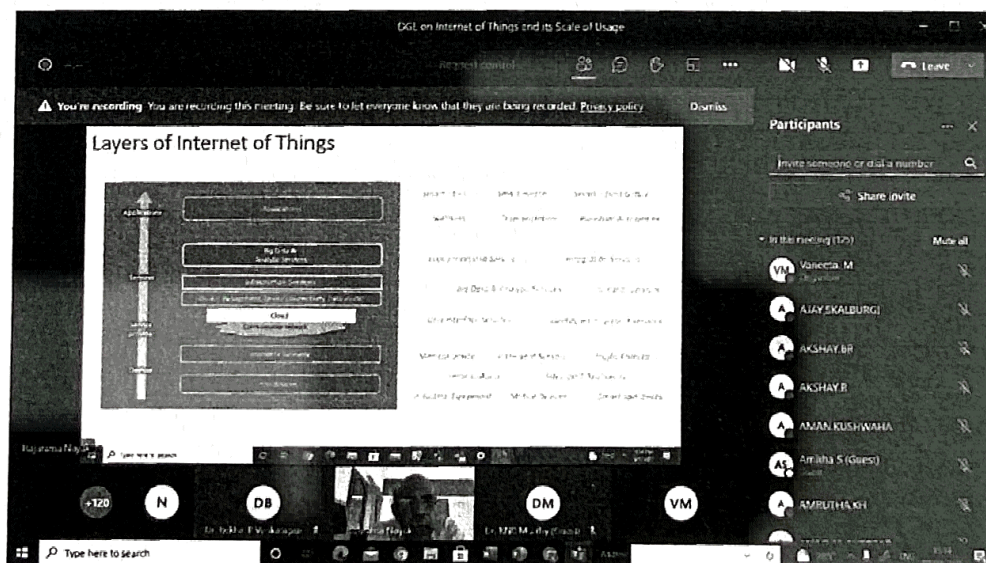

Fig. 1. Layers of IoT

The speaker emphasized on examples of things to be connected in domains of manufacturing, retail, smart city, transportation, industry, business and healthcare. Layers of IoT and their applications at each layer were elaborated.

Fig. 2 Device Communication Protocols

The speaker highlighted on wired and wireless device communication protocols. Mapping of different data types in programming languages required to store the data collected from the IoT application such as sensors (Temperature, Humidity).

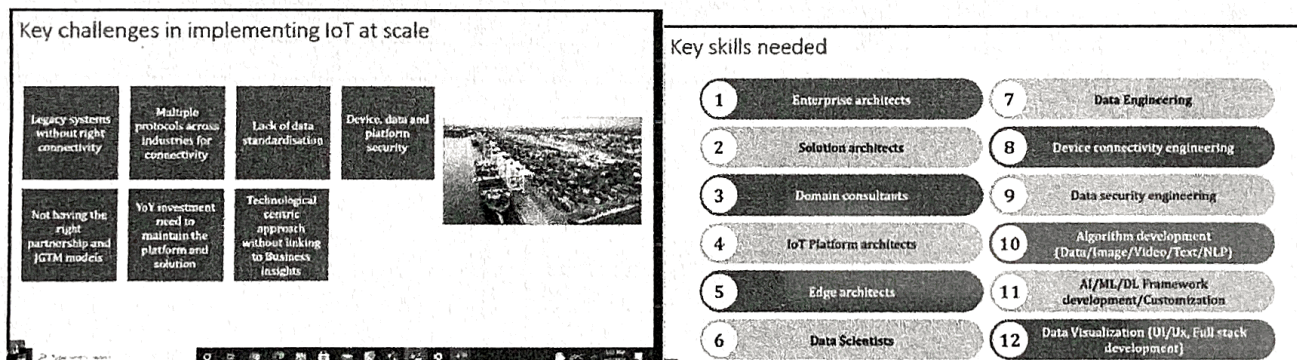

Fig. 3 Key Challenges and Skills in Implementing IoT

Speaker emphasized on challenges in implementing IoT at scale. The key challenges are legacy system, protocols, standardization and security. The skills required for implementing IoT.

Speaker lecture was really informative for the students to acquire knowledge on IoT and its scale of usage. We appreciate and thank the speaker for his lecture and educating the students on key aspects of Internet of Things.

**Seminar "MICROSOFT CERTIFICATION" by ATS Learning Solutions
organized on 25-10-2021.**

Figure 1. Speaker Mr. Manish Kumar Singh delivering the seminar

Learning Objectives:

After this seminar student will able to understand about

1. Microsoft certification and it's advantages
2. Importance of Internships
3. Need of Skill development
4. Advantages of experiential learning through workshops and projects.

Introduction

Awareness about the certification

The seminar about the 'Microsoft Certification Program' took place in the conference hall on Oct 25th 2021 at 11:30am. The talk was all about educating the students about the importance of Microsoft Certification programs and their importance and an added advantage in our CV's. Around 200 students from Computer Science, Artificial Intelligence and Machine Learning and Electronics and Communication Engineering branch students took part in the event.

Initially, the speaker clarified the differences between certificate and certification. The competitions in IT Industry and how the recruiting for fresher is decreasing year by year and also showed some news articles the same. The Industry needs skilled professionals rather than giving training to the fresher. So as the students need to be Industry ready, ATS Learning Solutions plays a vital role in upbringing the skills of undergrad students.

About the Program Structure

As there is a huge demand for the professionals in the field of Artificial Intelligence and Machine Learning, ATS Solutions are providing the "Microsoft Certification" on Machine Learning & AI with Python.

The program also includes various activities like:-

- Workshop
- Microsoft global certification
- Course completion certificate
- Project completion certificate

They have even mentioned that top 10 students who score well in their technical exam round will be given an Internship opportunities to work with real projects during semester break and get upto Rs.5000/- per month as stipend. (Internship duration: 2 Months)

Speaker - Manish Kumar Singh, Head, Institutional Collaborations,
 ATS -Authorized Education Partner(AEP) of Microsoft Corporation.

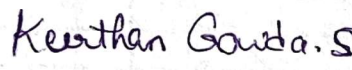

Co-ordinator - Prateek Tiwari - 6387221361

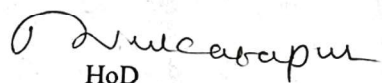

Out Comes of the Seminar

- CO1. An informative session for encouraging the ~~for~~ skill development.
- CO2. Awareness creation among students regarding the experiential learning through Internships.
- CO3. Motivation to students to enroll for certification courses
- CO4: Encouragement to students to take up Projects as a team.

Target Audience : 5th and 3rd Sem CSE Students

Titan company limited.

Program was started by welcoming all the dignitaries and speaker. Principal Dr. Dilip Kumar K welcomed the speaker Sri.Sumanth Sood, Dr. K N Balasubramanyam Murthy, Chairman BITES, Heads of all department, Faculty members and student participants. The Speaker Sri.Sumanth Sood delivered the Guest lecture by giving brief insights into Design Thinking Innovation.

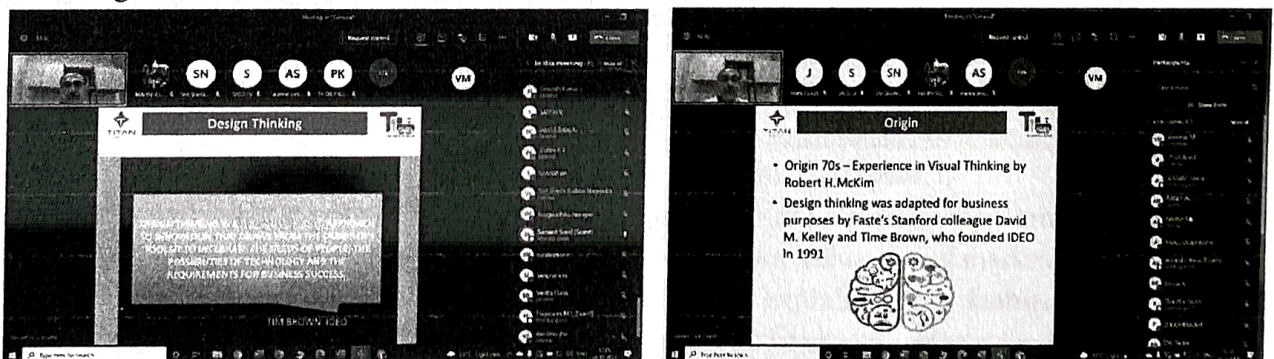

Fig 1. Design Thinking and its origin

The speaker explains what is design thinking according to Tim Brown, IDEO. According to Tim “Design thinking is a Human centered approach to innovation that draws from the designer toolkit to integrate the needs of people, The possibilities of technology and the requirements for business success”. Origin 70s - Experience in Visual Thinking by Robert H. McKim. Design thinking was adapted for business purposes by Fast's Stanford colleague David M. Kelley and Time Brown, who founded IDEO in 1991.

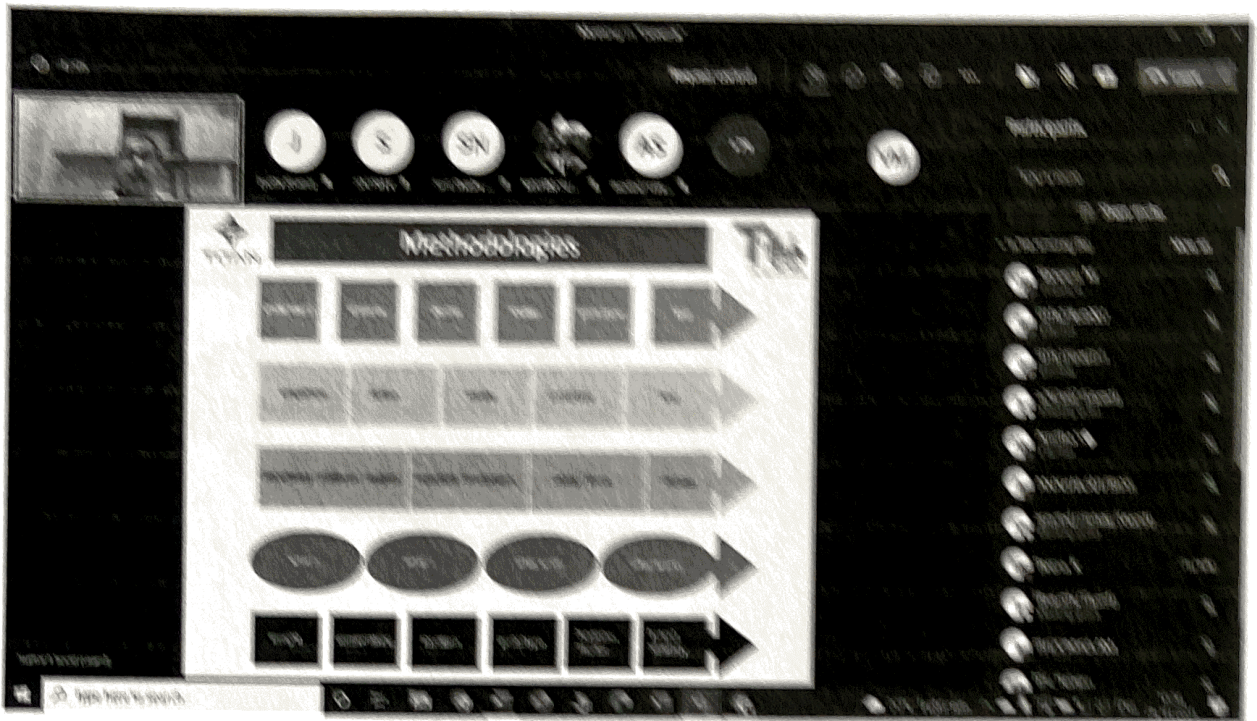

Fig 2. Methodologies

The speaker explains various methodologies like understand, observe, define, ideate, prototype, test etc.

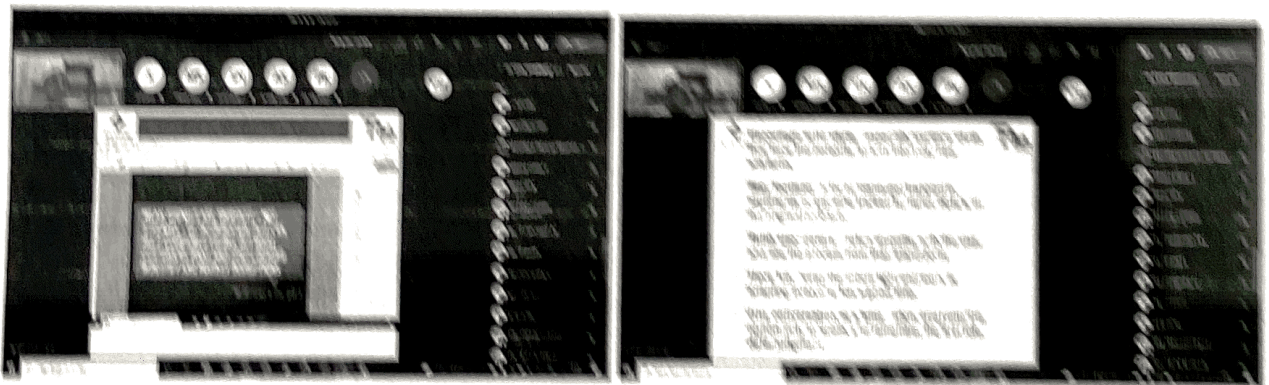

Fig 3. Customers' requirements and ideas

According to McKinsey & co "Weak signals are snippets - not streams- of information that can help companies figure out what customers want and spot looming industry and market disruptions". Later he explains about Ideas, how we can use ideas and all by explaining key features like Encouraging wild ideas, stay focused, think user-centric, Have fun, One conversation at a time etc.

The resource person gave insights about design thinking. Design thinking is a repeatable process for solving problems and identifying new opportunities. Not limited to the creation of things. Design thinking can be used for any type of solution including designing the customer experience.

Later speaker elaborated on Idea management system. A platform to generate and source innovative ideas for the posted challenges. It can be opened up to other Tata Companies if required.

The resource person explains about outcome recognition. A platform to recognize the recognize and celebrate the 'successes' and 'struggles' of innovation.

Fig 4. Innovation Process Steps

The speaker explains innovation process steps like Identity, Insights, Ideate, Implement. The untangle toolkit of Identify, Insights, Ideate, Implement and how these 4 innovation process steps are related with untangle toolkit.

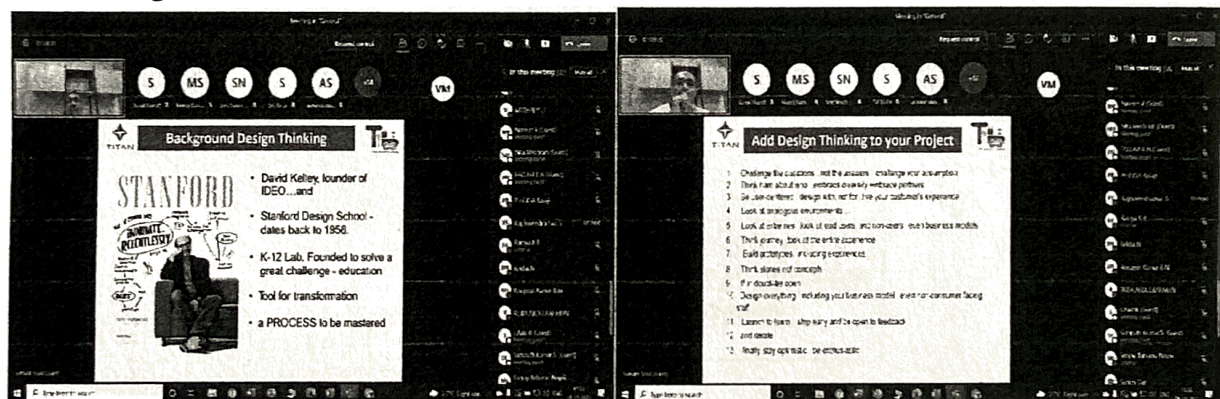

Fig 5. Background Design Thinking and add design thinking to your project

Later the resource person explains Background design thinking process. How we can add design thinking in our projects by explaining several steps like challenge the questions, not answers; challenge your assumption etc.

Speaker lecture was really informative for the students to acquire knowledge on Design thinking Innovation. We appreciate and thank the speaker for his lecture and educating the students on key aspects of Design and Innovation.

Talk on
'Entrepreneurship'

By EDC cell in association with ALUMNI

Speaker Mrs. Kavitha Shenoi delivering the talk

Kavitha Shenoi is an internationally certified Trainer, Speaker and Author. She is an Electronics Engineer and an alumnus of the Indian Institute of Management Bangalore, with over 20 years of experience in the IT industry.

She is the founder of **Krishika School**. She is an accomplished manager with outstanding business acumen, technical-leadership and big-picture thinking. She is a natural collaborative strategist with consistent success in multi-national and cross-cultural projects. She is also, a consensus builder with excellent communication and presentation skills. Her rich industry experience and learning renders all her training programs impactful and world-class benefitting more than 5000 participants, across the country.

Through her book '**The Green Business - How to Grow Money on Tress**', she strives to elevate the much needed eco-entrepreneurial ambience in the country. She believes "experimenting to excel", alone drives us to the pinnacle of our potential.

Introduction

The Talk on "Entrepreneurship" took place in the conference hall on Nov 26th 2021 at 11:30am. The talk was all about igniting the minds of young graduates with innovative ideas.

Agenda

"Financial Independence through Entrepreneurial Brilliance and Innovation"

The speaker shared her experience as being a successful **Shepreneurs Women** in our country. She did interact with students about their academics and gave some tips to improve. She explained some case studies that explain the much needed eco-entrepreneurial ambience in the country.

Felicitation ceremony by our CEO - Dr. K.V.A. Balaji, Prof-Dr. K Venkata Rao, CO-Mr. Krishna Gudi

Methods To Identify Emergence of New Ideas

- **Feel the pain** - According to the speaker, there is no need to scratch our heads for new ideas. Just to observe the problem in our daily activities and to innovate that solutions.
- **Sense the trend** - See the market needs, up's and down's, competitors and what is the survival rate and so on.
- **Start now** - Start with what you have and proceed.

As there is a need for young entrepreneurs in our country. Even Government of India has introduced many schemes to support upcoming enterprises in context of "Atmanirbhar Bharat - self reliant India". Many opportunities are waiting for young entrepreneurs and we have to grab those opportunities.

Felicitation ceremony by our principal - Dr. Dilip Kumar K

We from Entrepreneurship Development Cell(EDC) in association with KSIT Alumni Association(KSITAA), Thank all the professors who had made their time and efforts.

We even thank Niranjana Balaji of KSITAA for continuous support, student coordinators, and all the students who had participated in the event and making the event successful.

Thanking one and ALL....!!

REPORT ON INTERNAL SMART INDIA HACKATHON 2022

Smart India Hackathon is a nationwide initiative to provide students with a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem-solving. Hackathons are integral culture of KSIT, has hosted few hackathons in past (**SENTINAL HACK ,SENTINAL HACK 2.0**).

Now for the year 2022 students were geared up to take part in prestigious SIH 2022. For the year 2022 Problem statements were released and available on <https://www.sih.gov.in/sih2022PS>.

As a part of internal hackathon few brainstorming sessions were conducted for students

Internal Smart India Hackathon 2022 conducted on dated 11th April 2022 at K.S. Institute of Technology ,Bengaluru -which was openhouse event .

Internship Training Program- AZURE

Internship plays a vital role in a student's career. Internships are beneficial because they help develop professional aptitude, strengthen personal character, and provide a greater door to opportunity. It gives student the broadest spectrum of opportunities by investing in internships when seeking and applying for a job after college.

Welcoming bouquet by our HoD-Dr.Rekha B Venkatapur to all speakers for the day

Introduction

The Seminar on “Internship Training Program AZURE” took place in the mechanical seminar hall on May10th 2022 at 11am under Alumni Association. The talk was all about bringing awareness to the students about Internships and their opportunities. Around 100 students from the Computer Science Engineering branch students took part in the event. Students had talk from three companies about internship opportunities

Learning Objectives

After this talk students will be able to understand:-

- What is an Internship?
- Importance of Internships
- Need for Skill development
- Advantages of experiential learning through workshops and projects.

Outcomes of the Seminar's

- An informative session for encouraging skill development.
- Awareness creation among students regarding experiential learning in internships.
- Motivation to students to enroll on internship training programs.
- Encouragement to students to take up projects as a team.

We wish all the best for our students in their future endeavors from the Department of CSE.

REPORT ON DISTINGUISHED GUEST LECTURE

"SIMPLIFY AND AMPLIFY: SIMPLE STEPS TO HANDLE BIG CHALLENGES"

The department of computer science and engineering in association with bites organized distinguished guest lecture on "Simplify and Amplify: Simple Steps to Handle Big Challenges" on 23rd, 2022 at 3:00pm in virtual mode Microsoft teams platform. Teams Link: <https://msteams.link/S9H2>. The Students and internal faculty members and external faculty members were targeted participants..

SPEAKER

Mr. Anil Kant Choudhary,
Advisor, Consultant,
Mentor and Author

Program was started by welcoming all the dignitaries and speaker. The Speaker delivered the Guest lecture by giving brief insights into how to handle big challenges in life using simple steps

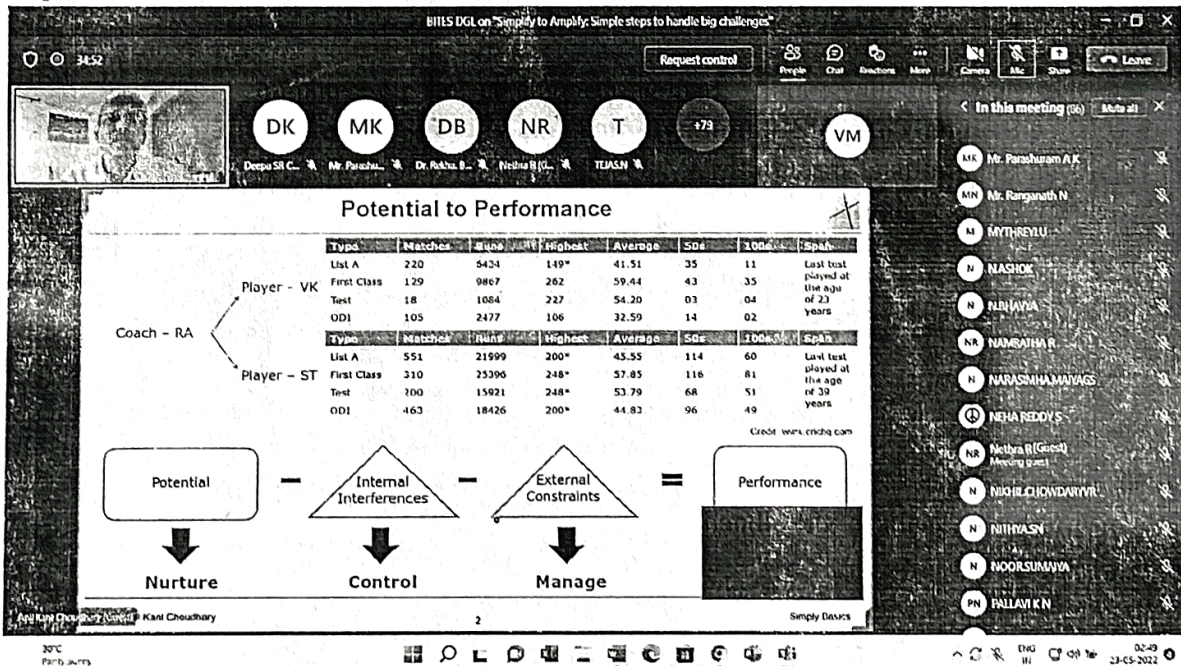

Fig 1. Potential and Performance

The speaker explains that every person has the potential to perform in different aspects of life. There are factors such as internal interference and external constraints that affect the performance of one potential. To nurture potential and improve performance the internal interference must be controlled and external constraints must be managed.

The parameters that affect the performance are inertia and momentum. Inertia is the tendency to do nothing new, not accepting the changes and resisting and declining changes. Momentum is the self belief to handle any changes, confidence of repeating performance and the urge to do better continuously. One can perform better by reducing inertia and improving momentum.

Inertia and Momentum

Inertia

- An object remaining in its existing state
- External forces needed to change the state
- A tendency to do nothing new
- Not accepting need to change
- Resisting and declining changes

Momentum

- The Impetus gathered by a moving object
- Helps carrying on with the motion
- Self belief to handle any challenge
- Confidence of repeating performance
- The urge to do better, continuously

Six: Simple Steps to handle big challenges

- Amongst the many ingredients to succeed Self Belief is the most fundamental and essential
- The belief to succeed needs to be complimented with a mixture of Doing and Learning as one moves towards the goal
- The ultimate success needs a Sustained Build-up of several small but incremental failures and successes
- One needs to thwart distraction through Focus on the end goal and Balance between multiple parallel activities
- While there will be people to guide you, the real Difference is Within each person
- Any significant goal needs more than one single person, do Acknowledge Team and respect contributions of others

Fig 3. Six: Simple Steps to handle big challenges.

According to the speaker there are 6 simple steps for handling any type of challenges.

Step 1: Self Belief: The most essential and fundamental parameter is believing in own self.

Step 2: Doing and Learning: As one moves towards the goal the belief to succeed needs to be complemented with a mixture of doing and learning.

Step 3: Sustained Build-up: The ultimate success needs a sustained build up of several small but incremental failures and successes.

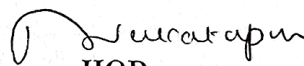

Step 4: Focus and Balance: One has to balance between multiple parallel activities and focus on goal

Step 5: Differences within: While there will be people to guide you, the real difference is within each self.

Step 6: Acknowledge Team: If it is a team work, do appreciate the individual effort and acknowledge team

Speaker lecture was really informative for the students to how to tackle challenging situations. We appreciate and thank the speaker for his lecture and guiding the students.

About Event

Event Name : "SENTINEL HACK 3.0 "

Date : 20TH - 21ST June -2022

Venue : Department of Computer Science & Engg.
K.S Institute of Technology ,
Bengaluru.560109

From the success of Sentinel Hack and Sentinel Hack 2.0 – Department of Computer Science & Engineering hosted Sentinel Hack 3.0 with the theme Multiverse of opportunities in association with BITES.

Hackathon has emerged as a vibrant forum to ideate and innovate. Naturally, this time our youth would be focussing on the post-COVID world in their innovations, along with ways to create an Aatmanirbhar Bharat –

By Hon'ble Prime Minister Shri Narendra Modi

An initiative to provide students with a platform to solve some of the pressing problems people face in daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving.

SENTINEL HACK 3.0 – 24 hours State level Hackathon with the moto “Multiverse of Opportunities” under the CSE Firefox student club from 20th June 2022 to 21st June 2022. The event concluded with the grand success.

The event inaugurated by by the chief guest **Dr. Pradeep V Desai**, CEO of Thalesat Innovations Private Limited (TIPL) accompanied by Hon'ble President of Kammavari Sangham **Sri. R. Rajagopal Naidu**, Hon'ble Secretary of Kammavari Sangham **Sri. R. Leela Shankar Rao**, Treasurer of Kammavari Sangham **Sri. T. Neerajakshulu Naidu**, **Dr. K.V.A. Balaji**, CEO K.S.Group of Institutions, **Dr. Dilip Kumar K**, Principal/Director, KSIT, **Dr. Rekha B Venkatapur**, Prof. and Head, Department of CSE were present during the event.

Sentinel Hack 3.0 event is to provide a forum for the students to exhibit their coding abilities in different domains like Agriculture, Education, Cyber Security, Fintech, Healthcare & open Innovation category to come up with their innovative ideas to solve real-world problems in the respective domains.

60 Teams with over 200 participants all around karnataka has taken part in event enthusiastically to build the solutions.

Mentors and Judges from industry - Academic profiles witnessed, guided and evaluated the solutions.

Mentors : Dr. Joy Prabhakaran,Dr.Surekha Borra,Dr.Rekha B Venkatapur

Judges: Mr.Pradeep Kumar Sr.System Engineer IBM,Mr Chethan,Assistant Manager Deolite Systems,Mr Darshan CEO TVAST,Mr.Narasimha Prasanna, Senior Technical Lead Cognitf, ,Mr.Kushal UI Developer Xpresslane, Mr Shreyas, Lead Backend Engineer Kenko Health,Mr. Samith Bharadwaj,CPTO,Dhiyo,Mr.Sam Lester,Co-Founder Remaster,California.

REPORT ON NATIONAL CONFERENCE ON “RECENT INNOVATIONS IN ENGINEERING-2022”

The Department of Computer Science and Engineering in association with VTU, CSI, BITES and ISTE Organized National Conference on “Recent Innovations in Engineering-2022” on 23rd and 24th June 2022.

Conference began with an inauguration function on 23rd June 2022 in Conference hall. Principal Dr. Dilip Kumar K welcomed the chief guest Dr. K N Balasubramanyam Murthy, Chairman BITES, Sri R. Rajagopal Naidu, President, Kammavari Sangham, Sri R. Leela Shankar Rao, Hon. Secretary, Kammavari Sangham, Sri. T. Neerajakshulu Naidu, Treasurer, Kammavari Sangham, Faculty members and student participants. Conference received 57 papers from seven different colleges all over Karnataka.

Registration was done on Day 1 from 8.30am to 9.30am for three sessions and Day 2 8.30am to 9.00 am for four sessions.

1. Registration Desk

Day 1: 23-06-2022 Session 1: Track on Data Science Started at 11.15am. The session chair was Dr. Shaila S G, Professor & Chair Person Data Science Program, CSE, DayanadaSagar University. Eight papers were presented in this track. The best paper award was given to paper entitled “AI BASED DIETICIAN” from DayanandaSagar Academy of Technology and Management, Bengaluru.

2. Welcoming Data Science Session Chair 3. Winner of Data Science Session 1

Day 1: 23-06-2022 Session 2: Track on Internet of Things Started at 11.15am. The session chair was Dr. Anitha J, Professor & HOD, CSE, RVITM, Bangalore. Nine papers were presented. The best paper award was given to paper entitled “PROTECTION OF FOREST TREES AGAINST POACHING BASED ON IOT” from K S Institute of Technology.

4. Welcoming IoT Session Chair 5. Winner of IoT Session 2

Day 1: 23-06-2022 Session 3: Track on Data Science Started at 2.00 pm. The session chair was Dr. Shaila S G, Professor & Chair Person Data Science Program, CSE, DayanadaSagar University. Seven papers were presented in this track. The best paper award was given to paper entitled “BIRD SPECIES IDENTIFICATION” from K S Institute of Technology, Bengaluru.

6. Winner of Data Science Session 3

Day 2: 24-06-2022 Session 1: Track on Software Engineering Started at 9.00 am. The session chair was Dr.Kumar B I D, Professor & HOD, APSCE, Bangalore. Seven papers were presented in this track. The best paper award was given to paper entitled “CHROME EXTENSIONFOR DROPDOWN CODE EDITOR” from K S Institute of Technology, Bengaluru.

7. Welcoming Software Engineering Session Chair

Day 2:24-06-2022 Session 2: Track on Cyber Security and Blockchain started at 9.00 am. The session chair was Dr. Hemavathy R, Associate Professor, CSE, RVCE, Bangalore. Eight papers were presented in this track. The best paper award was given to paper entitled “MORSE CODE SECURITY” from K S Institute of Technology, Bengaluru.

8. Winner of Cyber Security and Blockchain

Day 2:24-06-2022 Session 3: Track on Image processing & Computer Vision and Cyber Security and Blockchain started at 11.15am. The session chair was Dr. Sneha Girish, Freelancer, Mentor at Great Learning. Eight papers were presented in this track. The best paper award was given to paper entitled "HUMAN DERMIS CANCER DETECTION" from K S Institute of Technology, Bengaluru.

9. Image Processing and Computer Vision Session Chair and Winner Team

Day 2:24-06-2022 Session 4: Track on Networking and Data Science started at 11.15am. The session chair was Dr. C Nandini, Vice Principal, Professor & Head, CSE, DSATM, Bangalore. Nine papers were presented in this track. The best paper award was given to paper entitled "CLASSIFICATION AND DETECTION OF DIABETIC RETINOPATHY USING DEEP LEARNING WITH EYE FUNDUS IMAGE" from G.S.K.S.J.I.T.

Latex is a document preparation system for high-quality typesetting. It is most often used for medium-to-large technical or scientific documents, but it can be used for almost any form of publishing. All the faculty and students who wish to write technical papers, Thesis and proposals were highly encouraged to use Latex for their document preparation. The complete session was very informative which helped everyone imbibe the knowledge about Latex. Finally, feedback was collected from all the participants via google form.

25 students and faculty attended the lecture. The technical talk has provided the students and faculty an exposure to Latex. The webinar ended at 12.30 PM., and everyone signed out with positive feedback.

Organized by

RESEARCH FORUM OF KSIT
In association with
IETE STUDENTS' FORUM (ISF)
DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Date: 17th NOVEMBER 2021
Timings: 1.00 pm – 4.00 pm

Convener: Dr. Dilip Kumar K, Principal
Dr. PN. Sudha, HoD, ECE Dept

Faculty Coordinators:

Dr. Surekha B, Professor, ECE
Mr. Sunil Kumar GR, ECE

CONTENTS

Guest Lecture on "PATENT DRAFTING: BASICS" by Dr. Rekha N, Associate Professor, Dept. of ECE, KSIT was arranged by IETE Students Forum of ECE Department for faculty of ECE, CSE, ME and TC faculty and students on 17th Nov 2021 at 1pm in ECE Seminar Hall, Old Building, KSIT.

OBJECTIVES:

- To expose the participants to Patent filing Websites
- To provide the faculty an opportunity to meet the faculty who were certified in Patent Drafting
- To analyse differences between Patent Drafting and Research article writing
- To recommend various advantages of drafting the patent on our own.
- To understand the fundamentals of Patent Filing

PROFILE OF SPEAKER

Dr. REKHA N is currently an Associate Professor in the Department of Electronics and Communication Engineering of K.S. Institute of Technology, Bangalore, India. Dr. Rekha N earned her Doctorate in "Noise Cancellation in GSM Logical Channel Using Search Algorithm", from the Department of Electronics and Communication Engineering, K S Institute of Technology, Bangalore under V.T.U. in 2020. She completed her M.Tech in Digital Electronics, at East West Institute of Technology, Bangalore under V.T.U in the year 2009 in which she secured 3rd rank. She started her academic career as Assistant Professor in mid-2003 and served in various Engineering Colleges for 18 years. She has filed two Indian patents titled "ACCIDENT PREVENTION MANAGEMENT SYSTEM USING ARTIFICIAL INTELLIGENCE" in the year 2020 and "FEATURE EXTRACTION AND MACHINE LEARNING FOR EVALUATION OF STUDENTS COMMUNICATION SKILLS" in the year 2021. She has three projects funded by Karnataka State Council for Science and Technology .She has more than 10 journal publications. She is also a member of Indian Society for Technical Education - ISTE & Institution of Engineers (India) IEI.

EVENT:

The FDP was held on 17th Nov. 2021, 1 pm to 4pm in ECE Seminar Hall. Dr. Rekha N, Associate Professor, Dept of ECE, KSIT was the resource person. Dr Surekha, Professor, Dept. of ECE started the event by welcoming the Dignitaries and Participants.

Dr.Dilip Kumar K, Principal briefed the importance of Patent Filing. Mr.Sunil Kumar G, Assistant Professor, Dept. of ECE, gave a brief introduction about the speaker and had handed over the session to Speaker.

Dr.Rekha N covered the following topics in her lecture:

- Inventions
- Background of inventions
- Patent Classification
- Tests of Patentability
- Problem solution statement
- Transition from PS to claim
- Claims
- Introduction to specification drafting
- Requirements of Specification
- Parts of Application

4. How was the Interaction with resource person ?

25 responses

5. How well you gained the knowledge as an individual to develop documentation for technical writing (Patent Drafting) ?

25 responses

Outcomes of the event:

- Students and faculty gained knowledge about differences between MS word and Latex.
- Students and faculty understood the role of Latex in technical writing.
- Students got to know the typesetting text and formulae, indexing, creation of graphics and bibliography generation using Latex

Program Outcome

Participants got opportunity to understand the importance of using Modern tools for technical writing.

CAREERS IN SPACE SCIENCE AND TECHNOLOGY

IEEE EVENT 2, talk on **Careers in space and technology**, was held on 29th November, 2021. Dr. P.N. Sudha, HOD, ECE and Mr. Santosh Kumar, Professor, ECE, welcomed our guests **Sri V. Ramachandra and Sri Akhil Mohan.**

Sri V. Ramachandra, Retd. Director, Launch Vehicle Program, ISRO, spoke about the the organisation and it's centres across the country. He briefed us about the space systems and various kinds of satellite launchers used over the years. He explained about kinds of rocket propellant and aerospace materials used and gave the students an overview about how various missions like Chandrayaan 1 and Mangalyaan took place.

Sri Akhil Mohan taught the students the basic science that goes behind launching a rocket, from what's impulse to how propulsion of the rocket is calculated.

At the end of the session, a quiz was conducted and the winners were awarded with gifts. The session went on from 10:30 to 1.

OBJECTIVES:

- To expose the participants to Latest Technology
- To provide the faculty an opportunity to meet the faculty who were certified in testing the Current Technology
- To analyse the importance of ethics
- To recommend various latest solutions to deal specifically with AI ethics such as XAI, Bias aware training, Privacy preserving Data mining.
- To understand the fundamentals of Cyber security and bullying, fraud and piracy

PROFILE OF SPEAKER

Dr Srinivas Padmanabhuni is a Ph.D. in Artificial Intelligence from University of Alberta, Edmonton, Canada, specializing in AI. Prior to Ph.D. he secured his B.Tech from IIT Kanpur and M.Tech in CS from IIT Bombay. He is a guest professor at IIT Tirupati. He specializes in areas of software engineering, AI Machine Learning and Cybersecurity. He has to his credit: Seven granted patents, Multiple additional patents in process, One published book by Wiley, 100+ refereed international publications, 400+ invited talks across eight countries, 15,000 + students lectured on AI, and related topics, 4 + startups.

Srinivas Padmanabhuni co-founded CityMandi.com a next generation AI enabled smart B2B startup in Agri Tech focused on farm to fork. He has been the past president of ACM India, the top professional organization of computing professionals. He is the chief Mentor for Tarah technologies an AI consulting and training company. He specializes in areas of software engineering, AI and Machine Learning. He also co-founded a responsible AI startup testAlng.com. Earlier, he was a Principal Research Scientist and Associate Vice President at Infosys where he overlooked the university innovation ecosystem, alongside research and innovation group in Infosys Labs. He has won several other awards including the excellence award for Innovation at Infosys, Research excellence award at University of Alberta, and Merit award at IIT Kanpur,

Dr. Srinivas Padmanabhuni was awarded the title of "Eminent Engineer" by the prestigious and renowned organization "Institution of Engineers" (IEI). The award was given in recognition of his experience and contributions to the profession of Computers at the 32nd Annual convention of IEI. His vast experience in the computing field, including marquee area of Artificial Intelligence (AI), brings a unique blend of academic, research and industry orientation, which is a rare combination

EVENT:

Today, we all are witnessing the technology's power and potential through internet platforms like Google, Facebook, and retailer like Amazon, wherein Artificial Intelligence has become essential tool. Early on, it was popularly assumed that the future of AI would involve the automation of simple repetitive tasks requiring low-level decision-making. But AI has rapidly grown in sophistication, owing to more powerful computers and the compilation of huge data sets. Virtually every big company now has multiple AI systems and counts the deployment of AI as integral to their strategy.

This Guest Lecture is organized with an objective to provide opportunities for you to consider how Technology, and in particular Artificial Intelligence might affect in the future if not developed and tested properly, and what implications, benefits, and risks might emerge.

The Guest lecture was held on 30th April 2022 at 2pm in ECE Seminar Hall. *Dr. Srinivas Padmanabhuni, CTO & Founder, TestAlng.com, Bangalore*, was the resource person. Dr Surekha Borra, Professor, Professor of ECE Dept. & Chief research Coordinator, KSIT, Bangalore started the event by welcoming the Dignitaries and Participants. Dr. PN Sudha, HoD, ECE Department welcomed the Guest speaker with a flower Bouquet. Dr.Surekha Borra briefed the importance of organizing the Guest Talk on "Technology Ethics" and introduced the speaker to the August gathering. Dr.Srinivas took over the session at 2.15pm and have discussed the following topics in his lecture:

- Inventions
- Current Trend and Technology
- Common ethical issues
- Artificial Intelligence
- Smart Technology
- Environmental changes
- Cyber Fraud, Cyber bullying, Identity Theft
- Digital Rights, IP Theft, data Protection
- Properties of Ethical issues
- Tackling the ethical issues
- Ways to handle Technology ethics
- Specific to AI ethics Solutions- XAI, Bias aware training,
- Privacy preserving Data mining
- Policies to govern AI usages

Dr.Surekha Borra, Professor of ECE Dept. & Chief research Coordinator, KSIT, Bangalore introducing the speaker

Dr.Surekha B, Professor, Dept. of ECE,KSIT, Welcoming the guest speaker

Dr.Srinivas explaining the role of ethics in Social media

Dr.Srinivas explaining the importance of Security and privacy issues of Artificial Intelligence

Dr.Srinivas addressing the queries of participants

Dr.Surekha Borra Presenting token of Appreciation to Dr.Srinivas, Guest Speaker

The complete session was very informative which helped everyone imbibe the knowledge about privacy, security, and ethical issues relevant to the latest technology and in particular the Artificial intelligence and the risks associated with social media such as Facebook. Finally, feedback was collected from all the participants via google form. A total of 76 participants (66 students and 10 faculty) from different departments attended the lecture. The technical talk has provided the faculty an exposure to Latest Technology, Tools, Risks and Ethics. The event ended at 4 PM., and everyone left with positive feedback.

1. How was the event organised ?

76 responses

2. How are the communication skills of the resource person ?

- To help students understand the ethics in publishing

PROFILE OF SPEAKER

Dr Surekha Borra is currently Professor, in the Department of Electronics and Communication Engineering of K.S. Institute of Technology, Bangalore. Dr. Borra Surekha earned her Doctorate in Image Processing with a special focus on Copyright Protection of Images from Jawaharlal Nehru Technological University, Hyderabad, India, in 2015. She started her academic career as Assistant Professor in mid-2004 and served in various Engineering Colleges for 16 years. Her current research interests are Image and Video Analytics, Machine Learning, Biometrics, Biomedical Signal and Remote Sensing. She is currently guiding 5 research Scholars.

She has filed 1 Indian patent, published 9 books, 22 book chapters and more than 60 Scopus indexed research articles. As per Google scholar, her publications have more than 950 citations. Her international recognition includes services in various programme committees, editorial & review boards, wherein she has been a guest editor for 3 journals and reviewer for more than 25 refereed and indexed journals published by IEEE, IET, Springer, Elsevier, Taylor & Francis, ACM and IGI-Global.

She has received several research grants, awards and accolades from Government, academia, and professional bodies. She has received Young Woman Achiever Award from for her contribution in Copyright Protection of Images, Young Scientist Award in recognition of her research achievements, Distinguished Educator and Scholar Award for her contributions to teaching and scholarly activities, Woman Achiever's Award from The Institution of Engineers (India) for her prominent research and innovative contribution(s).

Apart from research, teaching, guiding and co-curricular and extra-curricular activities, she has an urge to continuously learn new things. After completing her PhD too, she attended many MOOCs offered by NPTEL, Coursera, Udemy, EDX, Udacity and ESRI. She is the topper of 3 NPTEL courses at National level.

She has been a member of many professional bodies and has actively organized and coordinated several Conferences/FDPs/Guest Lectures in association with many professional bodies such as IEEE, IE (I), ISTE, CSI, and IETE, for the benefit of students, researchers, and faculty. She is recognized as an IEEE Senior Member in the year 2021.

EVENT:

The goal of a research paper is to bring together different views, evidence, and facts about a topic from books, articles, and interviews, then interpret the information into own writing. Here are a few benefits of Research paper writing:

- It helps students enhance their research skills.
- It helps students focus more and build their own opinions about the subject. It helps them evolve critical thinking.
- It acts as a medium for creating and exchanging ideas.
- Provides deep knowledge to the readers as well as the student itself.

This Guest Lecture is organized with an objective to provide insights as how to start writing research paper. The Guest lecture was held on 18th May 2022 at 10.30pm in ECE Seminar Hall. *Dr. Surekha Borra, Professor, Dept. of ECE & Chief Research Coordinator, KSIT, Bangalore*, was the resource person. Mr. Saleem Tevaramani, Assistant Professor, Dept. & KSIT, Bangalore started the event by welcoming the Dignitaries and Participants. Dr. PN Sudha, HoD, ECE Department welcomed the Guest speaker with a flower Bouquet and briefed the importance of organizing the Guest Talk on "Writing Research Articles". Organized by: Department of Telecommunication Engineering, K.S Institute of Technology under Institution of Electronics and Telecommunication Engineers (IETE)

Resource Person: Mr. Senthil Kumar S, Associate Professor, GRT Institute of Engineering and Technology, Tiruttani, Tamil Nadu

Target Audience: Faculties of EC/TC of Engineering Colleges

Scope and Objectives:

This FDP focused on importance of booming technologies like Wireless Communication and Networking.

This FDP on Wireless Communication was organized for Faculties of EC/TC of Engineering Colleges. 54 faculties were registered for this FDP. 32 faculties all over the engineering colleges were present in the FDP. Speaker informed about importance of wireless communication in current scenario. He also informed the significant differences between wired and wireless communication networking. He also mentioned the usage of matlab commands in executing a general wireless communication related concepts. Wireless communication lab experiments were discussed in 2 days of FDP. The experiments discussed were as fallows: BPSK, GMSK, QPSK, Path loss concept, OFDM, TDM, Link budget algorithm, channel modulation algorithm, PN Sequence concept. Lots of questions were asked at the end of speaker's presentation. Speaker answered all the queries asked by the participants.

Dear Sir,

On behalf of K.S. Institute of Technology, I would like to thank you for conducting 2 days FDP on **"Wireless Communication: A Practical Approach"** from 9th to 10th October 2021 organized by department of Telecommunication Engineering under IETE Bengaluru.

Your content delivery was excellent and informative to everyone for conducting wireless communication lab for final year telecommunication students as per VTU syllabus using MATLAB tool. We appreciate you for sharing your time, talent, and expertise with us.

Looking forward for your cooperation in promotion of professional education in future as well.

Yours Sincerely,

Respected Sir,

Subject: Request for permission to organize a workshop on "Internet of Things(IoT)".

With regard to the above subject, I request your kindness to permit us to organize a workshop on "Internet of Things (IoT)" from 26th to 28th November 2021 for 7th semester ECE and TCE students. The resource persons are alumni of Telecommunication department Mr. Shushanth Kulkarni, Project Manager, Bosch Engineering and Business Solutions Pvt. Ltd, Prof. Rajesh Sudi, Asst. Prof., Dept. of ECE, JIT, and academican Prof. Ravishankar Holla Asst. Prof., Dept. of ECE, RVCE.

Kindly permit us to conduct the event and sanction the required budget from IETE student forum. Budget for the same is given below.

Report on "Internet Of Things(IOT) workshop"

Date of WorkShop: 26/11/2021 to 28/11/2021

Venue: CPL Lab, KSIT College, Bangalore **Organized**

by : K S Institute Of Technology, Bengaluru **Scope and**

Objectives:

Awareness of MQTT clients, MQTT server and its Programming

Day1:(Morning Session)

Speaker-1: Prof. Ravishankar Holla, Assistant Professor, Dept of Electronics and Communication Engineering, RVCE Bengaluru. He completed his Masters of Engineering from UVCE, Bengaluru

Prof. RaviShankar is currently pursuing his PHD in the field of Machine Learning for Agriculture.

He has over all 11 years of teaching experience and 3 years of Industry experience. He has accomplished research projects in collaboration with National Centre for Flexible Electronics-

IIT Kanpur, centre of Excellence- Macro electronics-Technical Education Quality Improvement program 1.2.1-RVCE. He has also done consultancy projects with M/s SAMSUNG, BEMCO FLUIDIK and SLN Hardware and he was actively involved in the project from SPIRE lab IISC, Bengaluru

Guests arrived at 9:00 am inauguration started at 9:15 am Chief Guest for inauguration was Prof. Ravishankar Holla Asst. Prof... Dept of ECE, RVCE, Bengaluru. Guests informed about the IOT workshop and started the Session with the Introduction To IOT and its Prototyping and its Architecture. He explained about the Architecture of microcontroller and its Applications.

Day1:(Morning Session)

Day1:(Afternoon Session)

In afternoon session he explained about current trends in the market and making use of this trends to obtain the opportunity. he explained about some lot examples like smart watches ,smart washing machine and home automation etc.He gave an idea about ESP32,ESP8266,Nodemcu Architecture and how a WifiModule works and how it is easily related to IOT applications.

Day1:(Evening Session)

In Evening session he explained about the profit margin of the industries and architecture of Nodemcu and its applications. He also mentioned how to use arduino IDE Tool and he taught some basic examples of arduino. He explained the procedure to get the installed libraries and code to dump inside the nodemcu component and he gave us to execute an blinking of an Led program using arduino IDE tool and examples of it.

Day 2:(Morning Session)

Speaker-2:Professor Rajesh Sudi,Assistant Professor,Dept of Electronics and communication engineering from Jyothy Institute Of Technology.

He has completed his Bachelors degree in telecommunication Engineering and Master's degree from VTU, Belagavi in RF MEMS and another Master's degree from Jain University, Bengaluru in Embedded System Design. He won the Gold Medal in his M. Tech Degree. He has 9 years of teaching at undergraduate level and 3 years of research experience and 4+ years of industry experience.

In a Day 2 workshop session Prof Rajesh Sudi Explained about the live Hands on session about the NodeMcu pin diagrams, drivers that will support for NodeMcu and its applications. Through NodeMcu how we can do blinking of an led, to Detect the temperature and Humidity Sensor using a NodeMcu .

Day 2:(Afternoon Session)

He Explained about creating a webpage on webserver and in the webserver to display the temperature and Humidity sensor values practically. He gave the information regarding the DHT 11 sensors and gave the codes to run on Ardiuno IDE tool to compile and dump into NodeMcu. He explained to download libraries for the Sensors which we were using to generate web servers etc.

Day 2:(Evening Session)

At the end of day 2 session he explained about BLYNK APP which was available PlayStore/ios to install it and he gave some basic information regarding that App.

He made a Live Hands on Session with BLYNK APP by connecting from Phone to webserver and to control the operations from the mobile itself to turn the led on and off. He explained to connect Nodemcu and DHT11 sensor and Relay in a BreadBoard and told to control the operations from relay and display the led.

Day 3:(Morning Session)

At Morning Session we had an Talk from an industry person namely Mr. Somshekhar Y our resource person. He has completed his BE Telecommunication Engineering from KSIT. He pursued his Master's Degree from Manipal University. At present he is working at Advanced Micro Devices(AMD) as a member Technical Staff. He has been serving this company for past 6 years. He has over 8 years of industry experience in VLSI. He shared his experience to everyone that how a outside industry works and present upgradations happening over a industry. He explained how the VLSI field has importance in outside market and he explained about the payscale of an VLSI Design Engineer. He briefly explained how the core sector has a demand in day to day life compared to the IT sector and mentioned about how VLSI works Frontend and Backend from Basic Level to Advanced Level.

Day 3:(Afternoon Session)

At afternoon session Prof. Rajesh Sudl sir guided us to try once again the Hands on Session on BLYNK App to relay circuit to control led and he explained the basics concepts of an INTEL GALLILEO board and its Architecture. He also gave the comparision with INTEL GALLILEO and RASPBERRY PI boards. He refered us to do a blynking of an led from INTEL GALLILEO board and at the end of the session he gave us the basic knowledge of an implementing an idea using an lot concept and the session was concluded.

Workshop Outcomes:

- Had Practical experience on IOT platform
- Got knowledge on usage of libraries based on various sensors like Gallellio Board,DHT11 etc.
- We gained the basic knowledge about various protocols used when communicating with hardware to software
- We had great Team work in debugging and solving the problems

POs Achieved from IOT workshop:

PO1: Science and Technology knowledge

PO2: Problem Analysis

PO3: Design and Development

PO9:: Individual and Team work

PO10: Communication

For batch-2 students, workshop was conducted between 9.30AM to 12.30PM. For batch-1 students, workshop was conducted between 1PM to 4PM. Inauguration was conducted between 9AM to 9.30AM. Invocation song was sung by Ms. Tanmayi, student of AI & ML. Both batch students are taught about the analog design part of few experiments using P-spice. Experiments are Astable multivibrator, oscillator and comparator.

Valedictory function was held from 3.45PM to 4PM. Two students gave feedback about speaker presentation and informed that since it was a hands-on session, it was more interactive and students informed that speaker was so patient in explaining and demonstrating concepts with clarity. Mr. Dileep J, Assistant Professor, Dept. of ETE proposed vote of thanks. Dr. Chanda V Reddy, HOD, Dept. of ETE and Dr. Ram P Rustagi, HOD of AI & ML thanked the speaker for his time in enriching student's practical knowledge.
