HISTORY OF REPUBLIC DAY

Republic Day is the occasion when India commemorates and observes the anniversary of the date on which the Constitution of India came into force on 26 January 1950. On this significant day in 1950, we embraced our constitution, which stands as the most extensive written constitution globally.

HIGHLIGHTS OF THE PROGRAM

On Republic Day, our college buzzed with excitement under the morning sun. It all started with a lively introduction that made everyone feel proud of our country. Our principal introduced the management and addressed the gathering. We then sang the State anthem, "Naada Geethe" together, creating a beautiful chorus of voices.

After the song, we had a special ceremony with Pooja and the unfurling of the national flag, showing how much we respect and admire our country's ideals. We also sang the National Anthem as a reminder of our commitment to democracy and unity. The president, secretary, and management, shared important thoughts about Republic Day. They encouraged us to be responsible citizens and appreciate the freedoms we have.

When the ceremony ended, we thanked everyone who took part. The celebration continued with a nice breakfast, showing how friendly and united our college community is. These cheerful moments and reflections made Republic Day extra special for our college, filling us with pride and a strong sense of togetherness.

Description of the Event:

The Teachers Day celebration was conducted by Applied Science & Humanities department in Collaboration with NSS unit of KSIT. The event started with the fun games arranged in quadrangle. Different games such as lemon and the spoon, In and Out, musical chair etc. was arranged for both ladies and gents' faculties.

The first game played by the teachers was lemon and spoon. The spoon and lemon race were played by walking while balancing a lemon on a spoon which is held by the mouth. It is an easy to play game that is coupled with a lot of fun. One has to balance the lemon without dropping it to the finish line just like a race. The lemon and spoon race are a crude game. Although people from all age groups enjoy the game but still it is commonly enjoyed among the children. The lemon and spoon game adds a spice to the usual racing games. It makes the ordinary race more challenging. The game is famous in educational institutions as it does not consume much time and can be played in the private grounds of these places.

The game is managed with simple stuff and does not need any high valued playing stuff. The rules are variable with the choice of the people and the level at which the sport is organized. As the street style is rather simple the basic rules of a race apply in this too. The spoon should be in the mouth of the player going for the race

when the race starts till the ending of the game. If the player drops it, the game is lost and he is out of the race. The hands cannot be used to adjust the spoon or the lemon balanced on the spoon once the game kicks off. Spoon and lemon should be provided from the organization commencing the game. If played in the general setting, it should be provided from the person judging the game. The size of the lemon and type of spoon provided to the participants of the spoon and lemon race should be same. As if there is any variation, it will result in disparity and inequality. In International setup, all the participants should cross the line demarcated for them in order to be counted in the final total. The participants should begin the race only when they see particular signal or hear a determined voice. They should all start at the same time. The lines are required to mark the areas of each participant and they should not cross it. They should run in their line. If they do so, a foul is given. The game can be played individually or in a relay manner where a team is supposed to win by taking turns at running. If the lemon falls from the spoon, the participant can stop and replace the lemon on the spoon. He can continue the race. If the player touches the spoon with a finger or any foul method as sticking the lemon to the spoon is found, a penalty can be imposed. The player can be banned to play further games. In some variations of the sport, the hands of the participants are tied behind the back to avoid cheating and mismanagement. The winner of the lemon and spoon game was Mrs. Lakshmi C from the department of Applied science and Humanities.

After lemon and spoon, musical chair fun game was arranged for the teachers to play. Start the music and have the players walk clockwise in a circle around the chairs. Stop the music suddenly, and all players need to sit quickly in an empty chair. One person will be left standing without a chair, and they will be out of the game. Another chair is then removed. The game continues until there is only one person seated in a chair. That person is the winner of the game. The winner of the musical chair game was Mrs. Mamatha N from the department of Applied science and Humanities.

The next game played was In and Out Game. It is a simple activity that introduces and reinforces the understanding of change over time. Players physically move into and out of a designated area of the playground to observe how the total number of teachers in the area changes as teachers enter and leave. The winner of the game was Mrs. Kavya T N from the department of Applied science and Humanities.

The prizes were distributed for the faculty who secured first and second place. Later the programme proceeded in the Conference Hall where, our beloved Principal Dr. Dilip Kumar K and chief guest of the event, Principal of Narayana PU college, Banashankari Branch addressed the gathering about teachers' day and later distributed the prizes. Later high tea was arranged for the staff.
